Trees Beyond the Wood

An exploration of concepts of woods, forests and ancient trees

3-Day Conference at Sheffield Hallam University, Sheffield UK

September 2012

The Biodiversity and Landscape History Research Institute is organising a three-day conference as part of our twenty-year programme of events on this theme. To celebrate twenty years from our first woodland conference and nearly ten years since the landmark 2003 **Working and Walking in the Footsteps of Ghosts** event, we have a major international conference to examine and discuss 'the wood' and its ancient trees. Themed sessions will be devoted to individual tree species such as Oak, Lime, Beech and Birch. Partners for the European Oak theme already include Vikki Bengtsson of *Pro Natura* in Sweden, and the *Ancient Tree Forum*.

Further details from Christine Handley on 0114 272 4227 (day) or email: info@hallamec.plus.com and on the UKECONET website:
